SCOPE OF DELIVERY

What you see is what you get.

Inflatable hull made from robust double layered PVC. The hull is equipped with five handles and a non-slip grip pad center.

Removable lithium-ion battery with LED display and plug and play technology.

Pre-assembled Powerbox with battery compartment and two fin holders. Integrated in the Powerbox is the board motor, jet drive and cooling system.

Mountable battery charger with LED indicators and a European power plug.

Hand-held remote control with Bluetooth technology, LED indicator and detachable wristband.

Battery charging cradle with connecting lead to battery charger.

Inductive remote-control charging station with USB port.

Remote control handle with a robust rope for enhanced control and stability.

Two detachable fins in black with a patented click-in system.

Repair kit for the board's inflatable hull.

Manual air-pump with pressure gauge.

Robust case containing two fins, Kill Switch and foot leash, remote-control with handle and wristband, remote control charging Station and pump sprayer.

Magnetic Kill Switch with foot leash.

Pump sprayer for rinsing of the cooling system after salt water exposure.
